INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, AUGUST 2, 1998 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

A firefighter from the Southern Oaks Volunteer Fire Department in Texas was fatally injured yesterday on the Richland Creek Fire in Texas. The fire community extends their condolences to family and friends.

There was minimal initial attack activity reported nationally. Drought conditions in Texas, Oklahoma, and Arkansas are making suppression efforts increasingly difficult for initial attack and on large fires. The Oklahoma National Guard and the South Central State Fire Compact have been activated. The National Interagency Coordination Center processed orders for a caterer, helicopters, equipment, engines, crews and overhead. Very high and extreme fire indices were reported in Texas, Oklahoma, Arkansas, Michigan, Arizona, Nevada, Idaho, Montana and California.

SOUTHERN AREA LARGE FIRES:

BEAR MOUNTAIN COMPLEX, Oklahoma State. A Unified Command structure is in place and a Type II Incident Management Team (Bollman) is assigned. Forces continue to mop up, patrol and assist initial attack as requested. Numerous new arson starts are occurring on State, Forest Service and private lands. Beaver Bend State Park, Museum, several houses and the Gaging Station Camp Ground, which had been evacuated, were re-opened. A Boy Scout camp and high value timber plantations are threatened. 5 structures have been lost with 15-20 more threatened.

O BAR O, Texas State - Kent County. A burnout operation along a ranch road was completed last night, preventing the evacuation of the town of Jayton (600+ people). The fire is threatening an oil storage area and associated facilities. High shifting winds, heavy oak, and juniper brush are contributing to control problems.

SUGAR LOAF, Texas State - Palo Pinto County. A large burnout was successfully completed yesterday. The line was completed yesterday and securement efforts are in progress.

ESCOTA, Texas State - Fisher County. This fire is threatening oil tanks and buildings. Progress was made on the line yesterday.

MUD FIRE, Big Thicket National Preserve. This fire is burning in a remote area, in hardwoods, leaf litter, pockets of very thick brush and downfall created by the infestation of the Southern Pine Beetle. A Texas Forest Service plow unit opened up an existing logging road to provide better access and facilitate water delivery to the line.

NEW HOPE, Texas State - Rusk County. The fire continued to spot over containment lines last night. Containment was expected 7/31. No new information was received.

RICHLAND CREEK, Texas State - Navaro County. No other information reported.

NORTHWEST LARGE FIRES:

WHITE PASS COMPLEX, Gifford Pinchot NF. A Type II Incident Management Team (Furlong) is assigned. This complex is located at White Pass Ski Area and consists of ten fires, the largest being two hundred fifty acres. Good progress made yesterday despite poor access and limited helicopter availability. A transition to local districts is planned for 8/3.

OUTLOOK:

An upper ridge will strengthen over central California bringing hotter and drier weather to the west coast states and western Great Basin. There will be scattered mostly wet thunderstorms in southern and eastern New Mexico, central Colorado, Wyoming and eastern Montana. High temperatures in the Northern Rockies will be in the mid 60's in the mountains to the mid 80's in the valleys. High temperatures will be 70's to 80's in the mountains and 95 to 115 in the valleys and deserts else where.

There is a heat advisory for portions of Arkansas, Texas and Oklahoma. Texas will be mostly sunny and very hot with a slight chance of thunderstorms in west and north Texas. High temperatures will be 100 to 115.

Oklahoma and Arkansas will be partly cloudy, hot and humid with a slight chance of thunderstorms. High temperatures will range from the upper 90's to 106.

Michigan will be mostly sunny with high temperatures 75 to 85.
